Prefatory Note

A few features of the present issue of the Alumni Register call for a word of notice.

First, it has been found wise to separate the Register from the Catalogue. As the Catalogue will hereafter be published early in the year, it will be possible to make the Register much more complete and accurate if it is issued separately.

Second, in response to numerous requests, the Register is this year provided with an alphabetical index. This will be made a permanent feature, which is sure to be found useful.

Third, the married names of Alumnæ have been placed in parenthesis after the connected maiden and married names used in the past. This will be a convenience, at least to the post office.

Fourth, the beginning of a list of class secretaries will be found on page 5. It is earnestly hoped that in time each class will have its permanent secretary; he will be found a valuable means of holding the class together, and of making it more effective in the service of the College.

In the body of the Register, an asterisk indicates that the person to whose name it is prefixed is not living; in the index the same fact is shown by the use of italics.

In conclusion, each Alumnus is urged to realize the importance of a prompt and full reply to the inquiry sent out by the College in the autumn. Only by the coöperation of every Alumnus can a trustworthy Register be published; neglect on the part of one person decreases the value of the

book. The College desires to keep in touch with every son and daughter, and relies upon this means to do so; will not each one help by filling out a postal card once a year?

Any change of address before the issue of the cards of inquiry next fall should be sent at once to the Recorder of the College, Professor E. G. Smith, Beloit.
